**Visit us Online:  
[www.SCvac.org](http://www.SCvac.org)**

- Childhood vaccines and their ingredients
- What are your vaccination rights?
- What are the risks associated with the H1N1 'Swine Flu' Vaccine?
- What are your natural alternatives?

Mary Tocco has been independently researching the vaccine issue and many other health care issues that face the American Family for over 29 years. She has been publicly speaking for the last 15 years and has spoken to thousands of parents across the country. Her goal is to reach every parent with this information. Her DVD "Are Vaccines Safe?" is now available on many websites. She exposes the deception and greed that fuels the vaccine industry and helps parents to understand what they must do to promote their family's health without toxic vaccines or drugs.
